

FertiUSA Animal Feed Catalog

PHOSFEED® 18

MANUFACTURING PROCESS

PHOSFEED® 18 is a feed grade, dicalcium phosphate produced by a chemical reaction between a feed grade phosphoric acid and high quality calcium carbonate under strictly controlled conditions.

PACKAGING

1000 kg big bag and in bulk

STORAGE

Store in a dry, cool and well-ventilated place. Stacking on maximum three levels for big bags

PRODUCT LIFE

Up to 36 months from manufacturing date.

ENVIRONMENT • HEALTH SAFETY • HANDLING

Refer to safety data sheet.

CONTACT INFORMATION

BENEFITS

Higher solubility & bio-availability of PHOSFEED® 18 provides your livestock with a greater nutritional value

Pure mineral ingredients in line with EU standards

CHEMICAL COMPOSITION

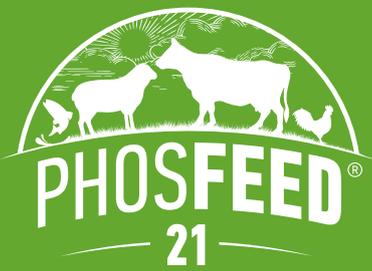

TOTAL P	18,5%
Ca	24,5%
P CITRATE ACID (2%) SOLUBILITY ..	98%
MOISTURE	2%

PHYSICAL PROPERTIES

APPARENT DENSITY 0.8-1

APPEARANCE Beige, Fine granules

PHOSFEED® 21

MANUFACTURING PROCESS

PHOSFEED® 21 is a feed grade, monocalcium phosphate produced by a chemical reaction between a feed grade phosphoric acid and high quality calcium carbonate under strictly controlled conditions.

PACKAGING

1.1 Mt big bag, 1 Mt big bag, 25 kg bags and in bulk.

STORAGE

Store in a dry, cool and well-ventilated place. Stacking on maximum three levels for big bags

PRODUCT LIFE

Up to 36 months from manufacturing date.

ENVIRONMENT • HEALTH SAFETY • HANDLING

Refer to safety data sheet.

BENEFITS

Higher solubility & bio-availability of PHOSFEED® 21 provides your livestock with a greater nutritional value

Pure mineral ingredients in line with EU standards

CHEMICAL COMPOSITION

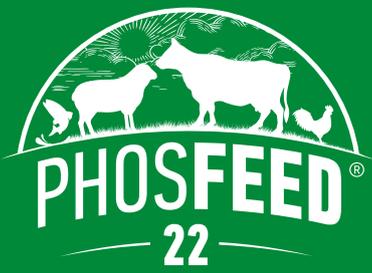

TOTAL P	21,3%
Ca	16,1%
P CITRATE ACID (2%) SOLUBILITY ..	98%
P WATER SOLUBILITY	85%
MOISTURE	2 to 3%

PHYSICAL PROPERTIES

APPARENT DENSITY 0,95-1,05

APPEARANCE Light beige. Mini-Granular

PHOSFEED® 22

MANUFACTURING PROCESS

PHOSFEED® 22 is a feed grade, monocalcium phosphate produced by a chemical reaction between a feed grade phosphoric acid and high quality calcium carbonate under strictly controlled conditions.

PACKAGING

1,1 MT big bag, 1 MT big bag, 25 kg bags and in bulk.

STORAGE

Store in a dry, cool and well-ventilated place. Stacking on maximum three levels for big bags

PRODUCT LIFE

Up to 36 months from manufacturing date.
